

The Clarinda Community Preschool recently received a grant in the amount of \$1,000 from the Clarinda Foundation to assist in updating the preschool's office equipment within each of the classrooms. Clarinda Community Preschool Director Amanda Vardaman stated "With the funds received new lower profile vertical cabinets were purchased that will enable the teachers to see over them and have the preschoolers in sight at all times. For the past three years we have been in the process of making our rooms feel more like regular classrooms. Our next step will be to find funding that will allow us to purchase new desks for our teachers."
