### **Media Release**

Grandma's House Day Care received funds from the Clarinda Foundation for the purchase of two I-Pad minis, protective cases and coverings. These items will be used in our Pre-Kindergarten classroom to complete immediate assessment and documentation for all of the children attending this class.

This project has created the opportunity for parents and teachers to know the day to day status of the children's progress academically, developmentally and emotionally. It will give tools to use to communicate with the parents and to change the method of teaching for each individual child. The Pre-Kindergarten class is composed of 17 children age four to five.

Funds were utilized from the Clarinda Foundation, tuition and fundraising to purchase these items.
